Formal Articulation Agreements for Associate Degree Graduates Morrisville State College Transfer Pledge

Morrisville State College is making it easier for community college transfer students to earn their four-year degree. The Morrisville State College Transfer Pledge is an opportunity designed to ensure that community college transfers receive full credit when transferring with an associate degree into an aligned program area. The new agreement eliminates reviewing transfer status based on a course by course review, honoring full junior status for incoming students and allows for graduation in just two additional years with the vision to Finish in Four. The Pledge also includes specific guarantees and financial support opportunities for high achieving students.

This Transfer Pledge is designed specifically to accommodate all Associate Degree graduates including those earning A.A.S. degrees. New alignments are added continually. If your college is not a pledge partner, our Transfer Team will be happy to align your specific program area as appropriate.

Please visit our website for more information on this opportunity - morrisville.edu/transfer-pledge
